Brent Papworth
Project Manager
Canam
87 Central Park Drive,
Henderson
AUCKLAND

To whom it may concern,

It has been a pleasure working with Canam on a design-build project in Greenlane these past 2 years. The 4 level office building and basement carpark commenced with Canam from late 2007 to completion in early 2009.

Initially I worked closely with Canam Director Nick Page throughout the project inception and tender phase and then latterly on a daily basis with Brent Papworth in his capacity as the project manager. Brent was responsible for the project in detail and remained on site in control of a large construction team.

Brent and the Canam team successfully completed this \$20 million dollar project in a very tight timeframe yet maintained a quality that would usually be expected from a longer construction period. As on all projects a variety of issues arose and I found that both Brent and Nick were proactive in resolving issues in both a timely and non-confrontational manner.

The design-build nature of the project worked well for all the parties involved and I have found Brent to be professional in his manner, sociable and easy to get along with due to his positive attitude and armed with the necessary project experience and knowledge to impress a wide range of people. Brent listens and understands and his responsiveness and efficiency enable him to manage his team in oftentimes tight timeframes leading to successful projects.

I personally look forward to Ignite Architects continued relationship with Nick Page, Brent Papworth and the whole Canam team in the years ahead.

Yours sincerely,
IGNITE Architects Limited
